DE LA DAME

La Dame, par sa marche libre et rapide, procure si souvent le gain d'une partie, avec facilité et promptitude, que chaque joueur cherche constamment le moyen de s'en procurer ou de prendre celles de son adversaire, même au prix de grands sacrifices.

Néanmoins, le but principal du jeu étant de gagner la partie, on ne doit pas faire de sacrifices pour aller à Dame, sans être sûr de la conserver, ni les faire plus forts que l'état du jeu ne le permet ; non-seulement il faut compter combien de pions elle coûtera, mais encore considérer quelle sera, après le coup, la position respective des deux jeux, si l'on ne veut pas que la Dame soit plus nuisible que profitable.

Souvent la facilité que l'on vous laisse d'arriver à Dame, n'est qu'un piège de l'adversaire pour vous faire perdre la partie, et, plus souvent encore, il vous y envoie lui-même, pour, le coup suivant, vous prendre votre Dame et plusieurs pions, et quelquefois aller lui-même à Dame.

A jeu égal et à force égale, on ne doit pas hésiter d'aller à Dame pour un ou deux pions, et même pour trois, si on empêche son adversaire d'y aller, et si la Dame qu'on va faire peut regagner les pions qu'elle a coûtés.

On doit faire autant d'efforts pour prendre une Dame que pour en faire une, et y apporter la même prudence et la même attention, car s'il n'y a pas autant de difficulté, il y a le même danger de ruiner son jeu dans les deux cas.

On évalue ordinairement la valeur d'une Dame à trois pions ; mais cela dépend beaucoup des circonstances du jeu et du talent des joueurs.

Les parties dans lesquelles il y a une ou plusieurs Dames sont extrêmement difficiles à jouer, car les pièges et les moyens d'attaque sont beaucoup plus nombreux.

L'étude de la quantité considérable de coups avec Dames contenus dans ce 2^{me} volume vous démontrera que la plus grande prudence doit être observée dans chaque coup.

Il est essentiel, lorsque l'on a fait une Dame, de la mettre le plus promptement possible en sûreté derrière ses propres pions, pour la faire agir ensuite en temps opportun.

Dans les fins de parties où il ne reste que des Dames de chaque côté, il est facile de déterminer d'avance quel en sera le résultat.

1° *Une Dame seule contre deux* annule forcément, même si la Dame unique n'occupe pas la grande ligne; il n'existe que deux pièges faciles à éviter

2° *Une Dame seule contre trois* amène une partie nulle forcée lorsque la Dame unique tient la graude ligne. Dans le cas contraire, la quantité de pièges qui existent pour prendre la Dame est si considérable, qu'il est nécessaire de faire jouer au moins vingt coups avant de déclarer la partie nulle.

3° *Une Dame seule contre quatre* doit succomber par deux pièges qu'elle ne peut éviter, même en occupant la grande ligne.

4° *Deux Dames contre deux* annulent deux pièges simples à éviter et empêchent la continuation de cette fin de partie.

5° *Deux Dames contre trois* n'amènent également que la nullité; il existe trois pièges qui sont bien difficiles à établir, surtout lorsqu'une des deux Dames noires occupe la grande ligne.

6° *Deux Dames contre quatre* doivent également annuler, par suite de la facilité qu'ont souvent les deux Dames de faire une pour une, pour amener la fin de partie de trois contre une.

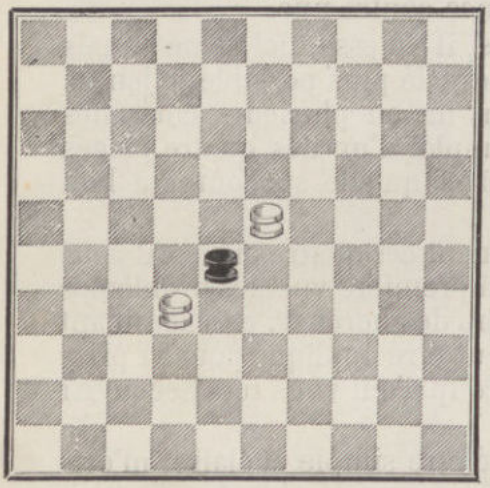
7° *Deux Dames contre cinq* doivent succomber, si le joueur des cinq Dames est habile.

Dépassé cette limite, les coups de Dames deviennent des Problèmes, et ne peuvent plus être généralisés. Je n'analyserai donc que ces sept fins de parties.

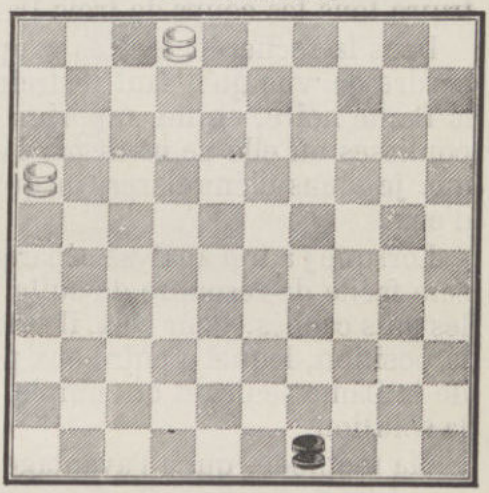
1 contre 2

Le piège unique de cette fin de partie, lorsque la Dame noire n'occupe pas la grande ligne (ce qui rendrait la partie nulle forcée), est l'enfermé.

1 — L'enfermé.



2 — L'enfermé.



Le premier diagramme donne l'enfermé sur la grande ligne en jouant la Dame 23 à 10, puis à 5, si la Dame noire se retire à 46.

Dans le deuxième diagramme, on bloque la Dame noire en jouant à 35.

Cette fin de partie ne se joue jamais, même contre un joueur de troisième force.

---

1 contre 3

Dans cette fin de partie, la Dame noire annule très facilement, si elle occupe l'une des extrémités de la grande ligne, en faisant la navette de 5 à 46, et n'a qu'un piège très simple à éviter, qui est le *trébuchet* que je décris plus loin. Mais si le blanc possède la grande ligne, cette fin de partie devient excessivement intéressante, car elle offre une grande quantité de coups que je vais généraliser en m'appuyant sur les quatre

pièges qui forment la base de toutes les positions que l'on a créées. J'ai donné un nom particulier à chacun de ces pièges, pour bien les distinguer entre eux ; les voici par ordre d'importance :

1° Le Trébuchet.
2° L'Enfermé.
3° Le Trictrac.
4° Les Coulisses.

Ces quatre pièges contiennent l'idée mère qui a servi à construire tous les coups de trois Dames contre une.

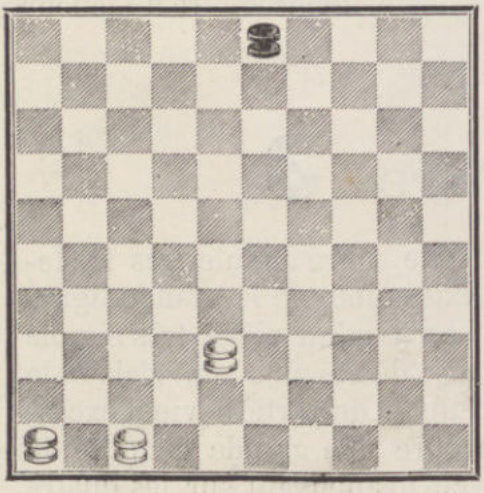
Dans la recherche de ces coups, il est essentiel de ne jamais perdre de vue qu'il faut restreindre le plus possible le jeu de la Dame noire, en lui supprimant un ou plusieurs côtés des coulisses où elle se meut par l'emploi d'un des quatre pièges que je viens d'énumérer, jusqu'à ce qu'elle succombe à l'un d'eux.

Lorsque j'aurai analysé séparément ces quatre pièges, il vous sera facile de résoudre de suite, à première vue, les problèmes les plus cachés. Pour cela, il suffira de chercher, en examinant la position, lequel d'entre eux peut être appliqué pour la prise de la Dame seule, et un simple coup d'œil vous fera découvrir la solution.

Ma méthode, qui a l'avantage d'être simple et claire, m'évitera la reproduction d'une quantité considérable de coups ne différant souvent les uns des autres que par le déplacement d'une Dame qui ne change rien au résultat.

1° Le Trébuchet.

1 — Le trébuchet.

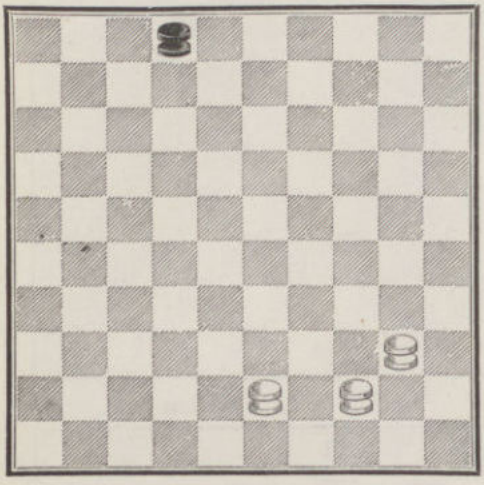


Le trébuchet est le coup le plus simple de trois Dames contre une ; il est très facile à éviter et on l'emploie très peu pour chercher la prise de la Dame noire ; le diagramme ci - contre en donne un exemple.

La Dame 46 joue à 14 et la Dame noire est prise par la Dame 47.

Il offre cependant une variation importante qui est un peu plus cachée et que j'appellerai la *souricière*.

2 — La souricière.



Le diagramme ci-contre reproduit ce piège; il fournit une certaine quantité de petits problèmes en déplaçant une des trois Dames et principalement celle qui occupe la case 43.

Pour prendre la Dame il suffit de jouer :

43	30	2	35
44	49	35	44

49 prend.

Cette position peut s'établir sur les deux petits côtés des coulisses 2, 16, 49, 35 et 3, 26, 48, 25.

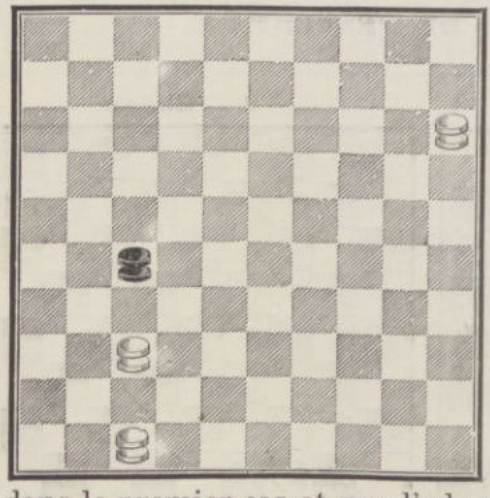
2° L'Enfermé.

Ce piège consiste à forcer la Dame noire à occuper une case contre une des bandes du damier et à lui opposer sur les deux extrémités des coulisses qu'elle occupe, une Dame blanche, de manière qu'elle se trouve bloquée.

1 — L'enfermé.



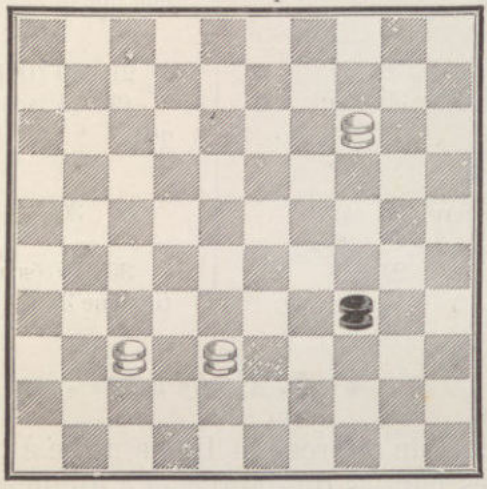
Dans l'exemple ci-contre, on donne la Dame 37 à 31 et l'on joue ensuite la Dame 15 à 4.

Ce piège se présente encore sous une autre forme que j'appellerai le *traquenard*, et qui est beaucoup plus cachée parce que les trois Dames blanches se trouvent en l'air, c'est-à-dire qu'aucune d'elles n'est appuyée sur une bande comme dans le premier cas et que l'adversaire ne craint pas ce piège de la part du blanc.

Cet enfermé ne peut se produire que dans la grande ligne comme l'indique le diagramme ci-dessous. On joue la Dame blanche 38 à 29.

La Dame 34 est obligée d'en prendre deux à son choix et vient se placer sur la case 5 ou 46 pour ne pas être prise sur le coup et la Dame blanche restante la bloque en se plaçant sur l'une des cases 5 ou 46.

2 — Le traquenard.



Ce piège est très employé pour forcer la Dame noire à abandonner un des côtés de la coulisse ou elle se meut.

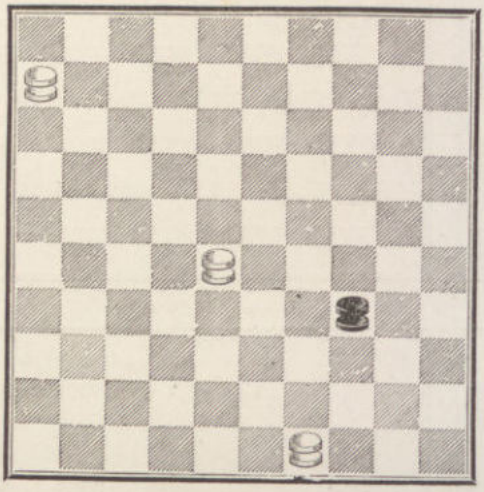
3° Le Trictrac.

Le trictrac est un piège que l'on crée dans les coulisses des trictracs 1 6 et 45 50.

Le trictrac.



En voici la solution :

49	40	34	45
6	1	45	50
1	6 g.		

On pourrait, si l'on voulait, enfermer la Dame noire en jouant comme suit :

49	40	34	45
6	1	45	50
28	6	50	45
6	50 enfermé.		

Ce piège est très souvent employé pour amener les *coulisses* ; il a une grande puissance pour forcer quelquefois la Dame noire à faire la navette d'une case à une autre, comme on le verra dans le chapitre suivant.

« Si le noir joue ici à 49 il perd par 11 44. »
35 40 23 45

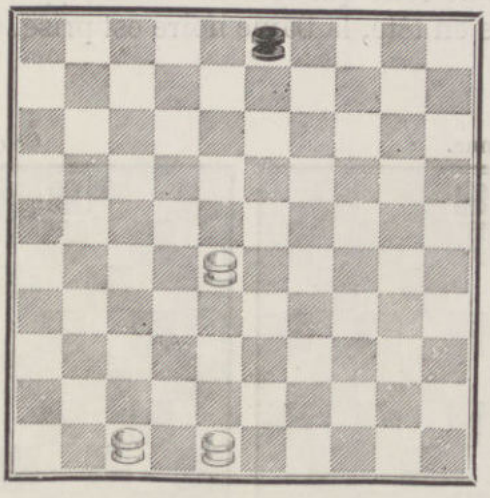
4° Les Coulisses.

Pour constituer ce piège, il faut que deux Dames occupent deux coulisses contiguës (comme les Dames 47 et 48), de façon à ce que l'une des deux, en se sacrifiant, fasse venir la Dame noire sur la ligne occupée par l'autre pour que, le coup suivant, elle se trouve prise par le sacrifice de la troisième Dame (D. 28). La solution de ce piège est en trois coups: 47 20 3 25
28 39 25 43
48 prend.

Les coulisses.



C'est l'emploi de ce piège qui amène les solutions les plus difficiles à trouver et, par conséquent, les coups les plus cachés.

Le piège des coulisses peut se présenter sous trois formes différentes, qui sont :

1° La Colonne.
2° Le Triangle.
3° La Contiguïté.

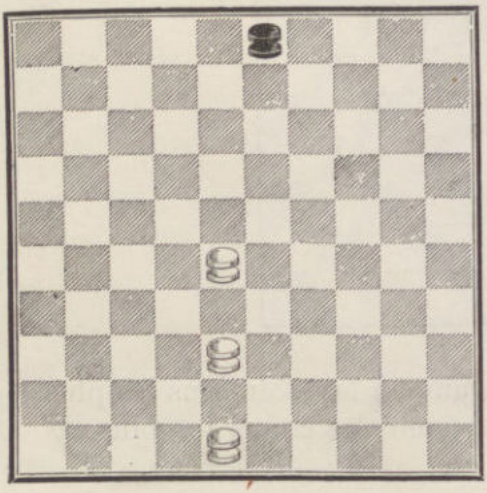
La Colonne.

La *colonne* est la position que l'on doit généralement chercher à prendre, car elle peut amener tous les autres pièges avec facilité. Les quatre diagrammes ci-dessous représentent cette position prise sur la base et le côté gauche du damier.

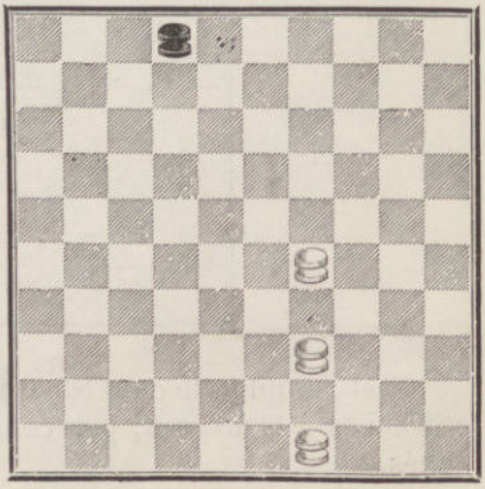
Ces positions peuvent être prises également sur les deux autres bandes.

Dans ces quatre positions, en donnant le trait au noir, la Dame est prise de quelque côté quelle joue ; car la Dame blanche du milieu de la colonne force la Dame noire à venir se mettre en face de celle qui est à la bande et, par le sacrifice de la Dame placée en tête, la Dame noire est prise.

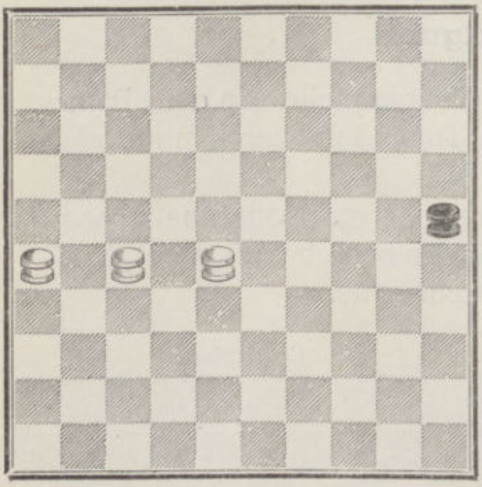
Colonne.



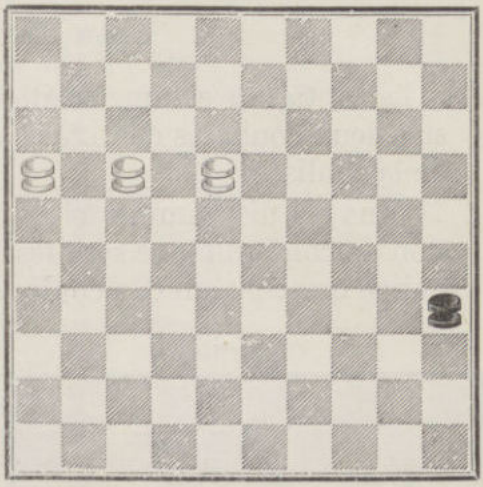
Colonne.



Colonne.



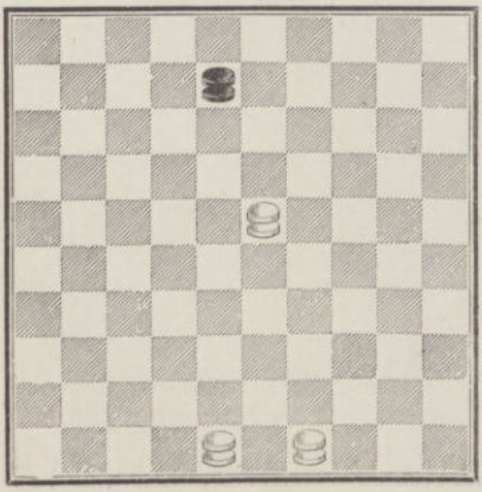
Colonne.



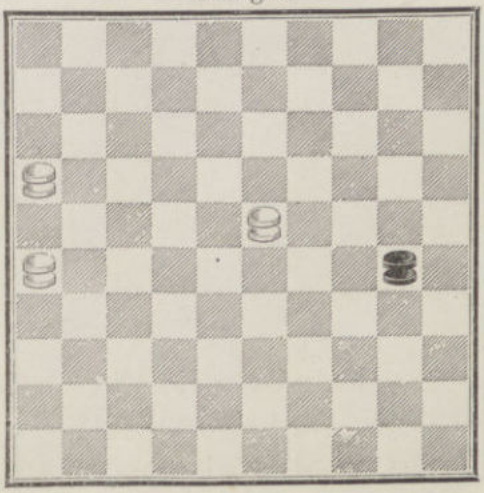
Le Triangle.

Cette position est un dérivé de la *colonne*. Les deux diagrammes ci-dessous représentent deux positions prises sur la base et le côté gauche du damier, qui peuvent également, comme celles de la *colonne*, être établies sur la bande droite et le côté supérieur du damier.

Triangle.



Triangle.



La Contiguïté.

La contiguïté est une position dans laquelle on a deux Dames sur deux coulisses contiguës, de façon à donner lieu au piège de la coulisse.

Dans les diagrammes ci-dessous, ce qui constitue la position de contiguïté, ce sont les Dames blanches **35**, **40** et **2**, **17**, qui se trouvent sur des coulisses contiguës.

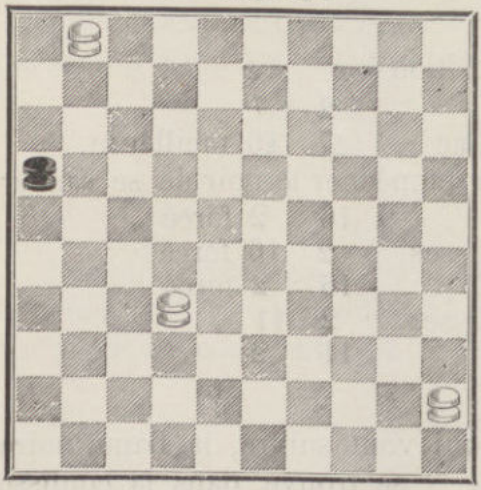
Les exemples qui vont suivre sont des coups dans lesquels il faut combiner les quatre pièges que je viens d'analyser pour parvenir à la solution.

Dans tous ces coups, il faut chercher à supprimer le plus de terrain possible à l'évolution de la Dame noire, et c'est au moyen des quatre pièges qu'on y arrive.

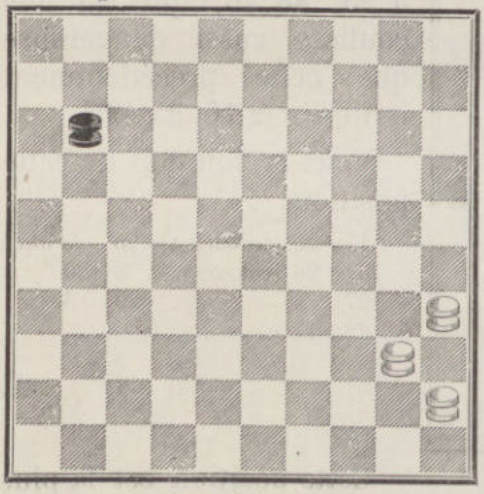
Cinq exemples suffiront, je l'espère, à bien faire comprendre la marche que l'on doit suivre, dans ce genre de problème, pour trouver la solution.

Dans la 1re position, de Harvant, le 1er coup du blanc est presque forcé, on joue 32 à 49, pour boucher la ligne 16 49, et tendre l'enfermé du trictrac si la Dame noire joue à 11.

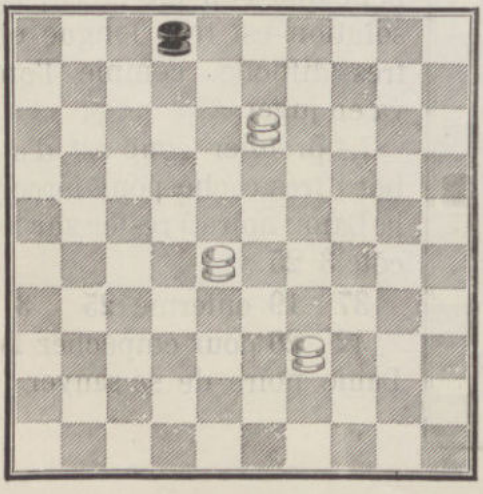
1 — **Harvant.**



2 — **Van Embden.**



3 — **Blonde.**



La Dame noire joue à **2**.

Le blanc joue la Dame **45** à **34** pour empêcher le noir de venir sur la ligne **2** à **35**, le piège des coulisses étant tendu par **34 30**, suivi de **1** à **40**, et le trictrac existant du même coup, la Dame noire n'a donc plus que la case **16** pour se placer.

Le blanc joue ensuite D **34** à **29**, laissant toujours le piège du trictrac; et le noir est obligé de revenir à **2**. Maintenant le blanc joue D **49** à **35**, formant un dernier piège des coulisses que le noir ne peutplus éviter.

		2	**11**
1	**7**	**11**	**2**
29	**24** g.		

Dans la 2me position, il faut aussi poursuivre la Dame noire en jouant :

45 50 **11 16** Meilleure
50 39 formant le trébuchet sur la ligne **16 49**.

		16	**2** forcé
39	**33** coulisses		
		2	**16** forcé
40	**7**	**16**	**2** forcé
33	**24** g.		

Dans le diagramme **3** comme dans les deux premiers, l'on remarquera que la Dame noire se trouve dans la coulisse **2, 16, 35, 49**, qui est une coulisse dangereuse

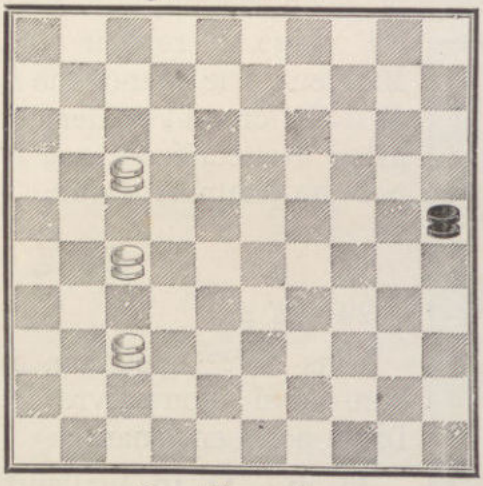
pour elle, par suite du grand nombre de pièges que l'on peut y faire.

Voici la solution de cette position :

13	35		2	7	
28	6	trictrac	○7	16	meilleure
35	49	pour empêcher le noir de se sauver			
			16	2	forcé
6	1	coulisses	2	16	forcé
39	33		16	2	forcé
49	35	coulisses	2	11	
1	7		11	2	
33	24	g.			

Dans les deux positions qui vont suivre, la Dame noire se trouve dans la coulisse **3 25, 48 26**, qui est une coulisse aussi dangereuse que celle précédemment indiquée (**2 16, 35 49**).

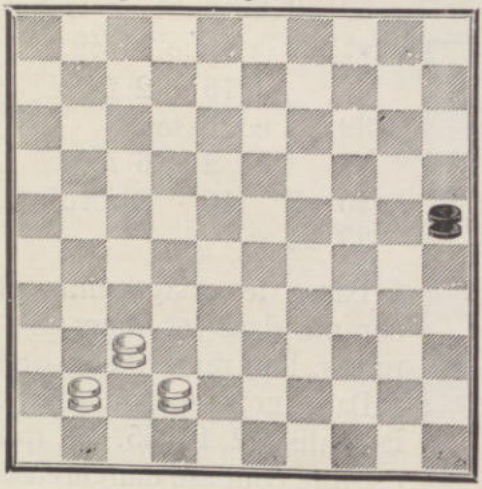
○4 — **Blonde.**



Voici la solution de cette position :

17	26	(trébuchet)	25	3	forcé
37	28	(colonne)	3	20	
27	9		20	3	
28	17	g.			

○5 — **Huguenin.**



Cette position est la plus belle que l'on ait créée; la solution est très longue et très difficile, comme l'on va en juger.

Le premier coup est d'abord très caché pour forcer la Dame noire à rester sur le côté **3 25.**

37 19 enfermé **25 3**

42 26 pour empêcher la Dame noire de se sauver.

3 **20** si la Dame noire se mettait à **25**, le blanc en jouant **26** à **3** formerait les coulisses et le noir aurait de suite perdu.

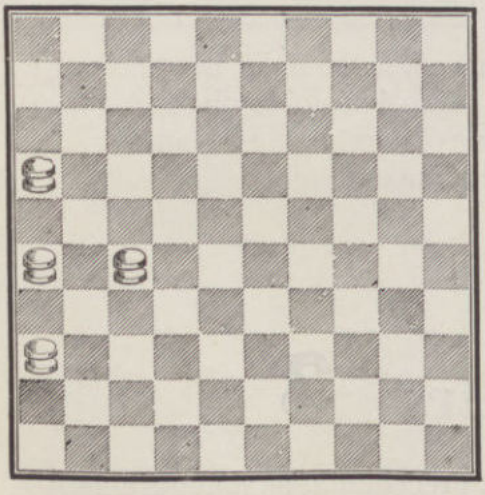
41	**47**		**20**	**9**
47	**36**	coulisses	**9**	**25**
36	**9**		**25**	**3**
19	**8**	g.		

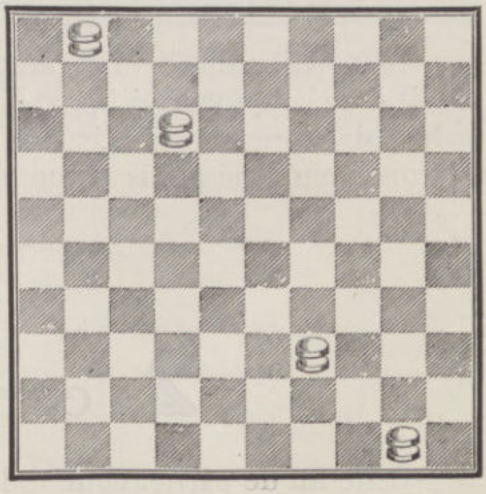
Le noir pouvait jouer d'une autre façon, mais le blanc, en le poursuivant avec les Dames **41** et **42**, finit toujours par établir le piège des coulisses, qui fait succomber la Dame noire.

---

1 contre **4**

Cette fin de partie est gagnée forcément pour le blanc. Les deux diagrammes ci-dessous représentent deux pièges qui prennent la Dame noire, quelque soit la case qu'elle occupe sur le damier.





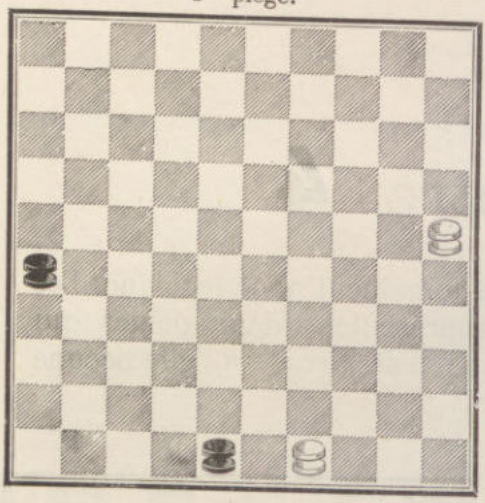
---

2 contre 2

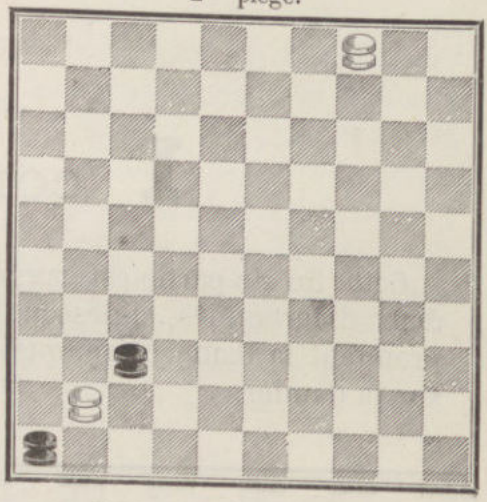
Cette fin de partie ne se joue jamais, les pièges qui peuvent se présenter étant trop faciles à éviter.

Le diagramme ci-dessous donne le premier piège. Le noir perd s'il joue la Dame **26** sur la ligne **26 48**, car la Dame blanche **49** joue à **43**, et la Dame **25** prend les deux Dames noires.

1er piège.



2me piège.



La position du 2me diagramme est de Blonde. Le noir perd s'il joue la Dame **37** à **5**, car la Dame **4** vient se placer à **10**, et le noir, après avoir pris une des deux Dames blanches, se trouve enfermé par la Dame blanche restante.

2 contre 3

Cette fin de partie, comme la précédente, se joue rarement. Les 5 pièges qui peuvent se présenter sont d'une trop grande simplicité pour essayer de les établir dans une partie sérieuse ; toutefois, pour rendre cette étude aussi complète que possible, je vais les représenter dans les diagrammes ci-après.

Cette fin de partie est une des plus intéressantes, bien qu'elle se présente rarement. Elle doit toujours se jouer, quoique le résultat final, en bien conduisant les jeux de part et d'autre, soit la nullité, car elle donne lieu à des pièges fort ingénieux qui se rapprochent des coup d'une Dame contre trois.

Pour résoudre les coups de 2 contre 4, il est essentiel de connaître parfaitement ceux de 1 contre 3 ; je reproduirai seulement ici quatre des plus beaux coups composés sur cette fin de partie, pour donner une idée des jolies combinaisons auxquelles elle peut donner lieu.
